

Essential Pet Documents to Scan and Store

Here's a comprehensive list of **important pet documents** you'll want to scan and store safely in your cloud folder (and keep paper copies in a waterproof bag):

Essential Pet Documents to Scan & Store

1. **Vaccination Records** – Proof of rabies, distemper, parvo, and other required shots.
2. **Veterinary Records & Medical History** – Past treatments, surgeries, prescriptions, allergies.
3. **Spay/Neuter Certificate** – May be required for boarding, adoption, or travel.
4. **Pet License/Registration** – Local municipality registration documents.
5. **Microchip Registration & Number** – Including the company's contact info.
6. **Adoption or Breeder Papers** – Proof of ownership.
7. **Health Insurance Policy** – If your pet is covered by pet insurance.
8. **Emergency Contact Information** – Your vet, after-hours clinic, and secondary caregiver.
9. **Travel Documents** – Health certificates needed for flights or interstate/international travel.
10. **Recent Photo(s)** – Full-body and close-up shots in case your pet gets lost.

Tip: Keep a small printed copy of your pet's photo and microchip info in your wallet or go-bag, in case you need to prove ownership quickly.
